

DRYWALL INSTALLERS & TAPERS!

What Conventional Crown Moulding Installers Don't Want You To Know!

NovaCrown is a feather-light, simple to use *paper wrapped polystyrene crown moulding*
Easily attached using drywall compound at the drywall stage of construction

An average room needs 60 – 70 lineal feet of crown moulding

60 – 70 lineal feet of NovaCrown moulding can be installed in just 1.5 – 2 man hours

Subtract your cost of material and **YOU KEEP AN AVERAGE OF \$2.75 / FT. in addition to what you are already making.** You have virtually no additional labour costs

YOU CAN PROFIT AN EXTRA \$165 - \$195 PER 1.5 – 2 HOURS OF LIGHT EASY WORK

IN A TYPICAL DAY MAKE AN EXTRA \$660 - \$780 OR MORE

- ✓ *NovaCrown is simple and easy to install at the drywall stage and guaranteed to outperform wood and mdf mouldings*
- ✓ ***Why let a finishing carpenter make all the money on crown moulding installations when you can do it better, faster, easier and for less!***
- ✓ *This is your opportunity to go after this area of finishing and add value to your services, savings to your clients and profit to your business!*
